

### **Why S&G?**

Our knowledgeable and experienced staff have been building homes in Hawaii since 1998. On schedule, within budget, per plan and specifications—Customer Service is our priority.

### **Why Steel?**

Termite Proof / Hurricane Resistant / Fire Resistant / Stronger and Straighter Product that doesn't shrink.

### **Why Pre-fabrication?**

Working in a dry and covered environment, rain-outs and other jobsite situations does not affect our production. We can provide your product on schedule. Our fabrication tables are set-up to provide and maintain consistent quality throughout the build.

Prefabrication saves time.

### **Why Installation?**

S&G is your one stop shop. Our construction crew complies with safety demands of the Army Corps of Engineers military projects. We build with quality within the budget and on schedule.
